STUFF YOU PROBABLY WANT[®]

2015

Featured: The Big Turtle Shell®
See page 8

WE KNOW WHAT YOU WANT: THAT **NEW NEW NEW NEW.**
GOOD THING WE'RE BRINGING IT.
IN A WORLD THAT'S CONSTANTLY TRYING TO TIE YOU DOWN,
WE'RE WORKING TO **SET YOU FREE.**
DON'T BE AFRAID. YOUR DESK JOB, TERM PAPER, DIRTY LAUNDRY
AND JUNK MAIL WILL BE HERE WHEN YOU GET BACK.
WHILE YOU STILL HAVE A CHANCE, STEP AWAY FROM
THE DAILY GRIND, PICTURE YOUR HAPPY PLACE,
STOP, DROP, AND ROLL OUT.
WHEN YOU GET THERE, SEND A POSTCARD TO LET US KNOW HOW
YOU'RE DOING. DO THE FISH NEED FEEDING? THAT'S AN AIR PLANT—
YOU DON'T HAVE TO WATER IT. WE'LL FINISH THE LEFTOVER
LO-MEIN IN THE FRIDGE AND TAKE OUT THE RECYCLING.
ENJOY THOSE SUNSETS, STOCK UP ON CAMPFIRE MEMORIES, AND
LET THE MUSIC BE YOUR GUIDE.
WHEN YOU RETURN TO CIVILIZATION, DON'T BE SURPRISED TO FIND
YOU'VE CHANGED. MOST LIKELY FOR THE BETTER.
WE'LL BE HERE TO HELP CELEBRATE THE GOOD THINGS. TO **KEEP YOUR**
MIND FREE WHILE YOUR BODY WAITS FOR THE NEXT ADVENTURE. IF
YOU ARE EVER IN THE AREA, STOP BY, BUT DON'T THANK US.
YOU ONLY NEEDED **A LITTLE PUSH.**
STAY CONNECTED BUT NOT TETHERED.

WAIT...**

**THE BUCKSHOT,
SUPER-PORTABLE
RUGGED AND WATER-
RESISTANT SPEAKER.**

You're looking down the barrel at the Buckshot®: the ultra-portable, multi-functional, rugged, water-resistant wireless speaker from Outdoor Tech®. It's the sneakiest little speaker on the block, but it delivers sound like a sawed-off 12-gauge and has a rugged, rubberized exterior that can take a beating. With a handlebar mount for your ride and a built-in speaker-phone, the Buckshot can take hands-free calls from your therapist whenever and wherever you may be.

//BUCKSHOT

It's like carrying an Iron Maiden around in your pocket, only lighter.

USB charging cable, handlebar mount, and user manual

WELCOME THE NEWEST ADDITION TO THE ODT FAMILY.

THE BUCKSHOT PRO, 3-IN-1, ALL GROWN UP: SPEAKER, POWERBANK & FLASH LIGHT

Back in the day, when I was a teenager, I rocked the Buckshot while clowning my neighbors. Then I went Pro, had to up my game, protect myself, it was a damn shame. But it wasn't all bad, I swooped a Buckshot Pro, same tight form factor and still mounted to my Schwinn, but with all that sensible stuff I didn't care about back in the day. Built-in powerbank, so I can charge-up and call home in a pinch and a built-in bike light to keep me safe from those ~~wasted~~ distracted texting drivers. So the moral of the story is it isn't all bad growing-up, some things just get better. Buckshot Pro.

2.0

**THE SPEAKER THAT CHANGED THE GAME,
AND LOOKED GOOD DOING IT.**

**20% LOUDER,
CLEANER SOUND
& BLUETOOTH 4.0.
DON'T THANK US,
THANK SCIENCE.**

We wouldn't say something as clichéd as, "the best just got better"...unless it did. Redesigned from the inside out at our Los Angeles headquarters, the new Turtle Shell® 2.0 features improved water- and dust-resistance, cleaner and louder sound, longer battery life, and easier power monitoring, all packed inside the same award-winning iconic design that looks just as good on your coffee table as it does out in the elements.

THIS ONE'S GONNA MAKE A BIG SPLASH

**THE BIG TURTLE SHELL®,
THE T-REX OF WIRELESS
SPEAKERS...
MINUS THOSE ADORABLE
LITTLE ARMS.**

This is the Big Turtle Shell® by Outdoor Tech®, the world's loudest ruggedized and water-resistant Bluetooth wireless speaker. "But you don't know if it's really the loudest." Yes we do. It's really loud. Rattle-your-teeth, shatter-the-fishtank, honestly-bro-I-can't-hear-you loud. Noise violations, anyone? Of course, you can play it softly if you want, but that's like riding on the lower level of a double-decker bus. Just like its little bro the Turtle Shell® 2.0, the Big Turtle Shell® features a water resistant, ruggedized body, twin up-fi speakers for 360-degree omnidirectional sound, and a passive bass radiator to ensure your dubstep has the required... dub.

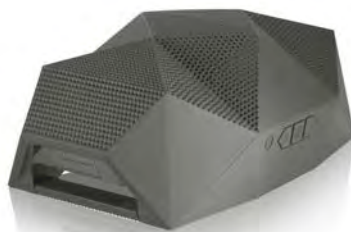

//BIG TURTLE SHELL®

The Big Turtle Shell® is a water-resistant opera house, minus the, you know, opera.

**BLAST YOUR
MUSIC →
ON THE GO.**

THE LITTLE THINGS MAKE A BIG DIFFERENCE

You've made a great decision to improve your life, namely: purchasing (or, even better, acquiring via the generosity of others) a Buckshot™, Turtle Shell® 2.0, or Big Turtle Shell. Now all you need is a way to take it with you when you're out and about. Our speaker accessories help keep your tunes secure and blasting straight to your dome at all times. Don't worry—we've got just the thing.

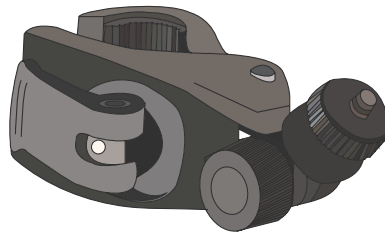

//SPEAKER ACCESSORIES

//FUNCTION

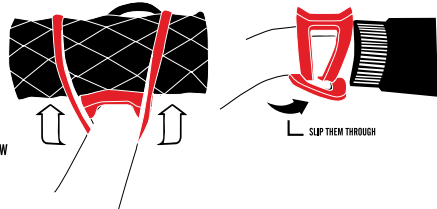

STEP ONE: SET RIBS DOWN ONTO YOUR HANDLES

STEP TWO: LOOP THE STRAPS THROUGH EACH OTHER

STEP THREE: PLACE THE BUCKSHOT ONTOP & LOOP THE STRAPS OVER EACH SIDE

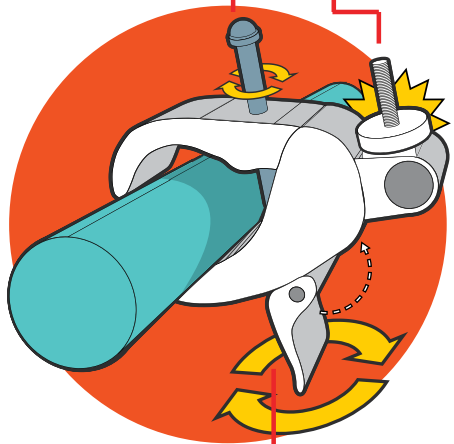

LOOP & GO

It's the perfect little speaker to loop onto every day objects so that you can bring your speaker every where. You can get creative and find some pretty handy places to loop it onto.

LOOSEN TO ADJUST THE ANGLE OF YOUR TURTLE SHELL.

STANDARD CAMERA THREADING

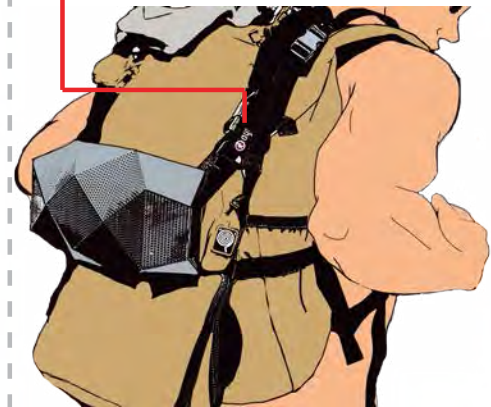

TURN LEVER TO DESIRED THICKNESS AND CLAMP DOWN

TWIST, CLAMP, GO

Turn the lever clockwise until the clamp is just big enough to fit around the object. Press the lever down to firmly attach the Turtle Claw to the object.

STRAP TO YOUR BACKPACK

STRAP & GO

These four straps come in handy for when you want to carry your Big Turtle Shell® on the go. Just loop the strap through the handles on the Big Turtle Shell® and whatever you want to attach it to, and then strap the velcro pieces together.

//FEATURES

TOUGH AND TRIM

**THE DJ SLIMS, RUGGED
WIRELESS HEADPHONES.
YOU PROBABLY CAN'T BREAK
THEM, NOT THAT YOU'RE A
NANCY OR ANYTHING...**

The DJ Slims are all about low-profile, lightweight execution. Their super slim shape stays under the radar in the office or on your way down the block to happy hour, and the lightweight headband features the same rugged, rubberized finish you'll find on other ODT products. A built-in microphone gives them hands-free calling capability, and external controls mean never taking your device from your pocket or bag. Tread the road that beckons, and take your music along.

- Standard micro USB charge port
- Battery level "fuel gauge" displayed on source device
- Bluetooth 3.0
- Wireless range: 32 feet

Included:

USB charging cable and user manual

TOUCH YOUR PRIVATES IN PUBLIC.

THE “PRIVATES” WIRELESS HI-FI HEADPHONES WITH A TOUCH PAD INTERFACE.

The Privates feature a touch pad interface on the right earpiece that allows you to change tracks and control volume with the swipe of a finger. It's so easy, in fact, that you might begin to hate anything that doesn't have a touch pad interface...for instance, your cat, and possibly your bathroom sink, unless you are in Japan. Add built-in call functionality, a 3.5mm auxiliary jack for plug-in capability, and a tough canvas wrap around the headband, and the Privates are looking better than a glass of scotch in front of a crackling fire on a winter evening.

//PRIVATES

Privates come in every color, shape, and size. Ours just looks better on your head.

EXPERIENCE 1ST CLASS

WITH THE

THE TUIS

{two:ees}

**PERHAPS THEY'RE A
BIT PRETENTIOUS,
BUT YOU'D BE TOO IF
YOU SOUNDED THIS
GOOD.**

"Better than me?" you ask. No offense, but the answer is probably yes. The Tuis are named after the flashiest bird in New Zealand, one with iridescent plumage, two voice boxes, and a bit of an attitude. They arrive packed with the finest features, including hi-fi reference components, plusher-than-plush ear pads and headband, an integrated 3.5mm auxiliary jack, Bluetooth 3.0, and integrated hinges for folding and transport. They deliver amazing sound while making other headphones wish they could run home and change into nicer outfits. They might take your date out dancing while you sit there and watch. They might even give you an inferiority complex. It's just how they are.

//TUIS

According to the Tuis, you may not have the mental capacity to handle these.

WE GIVE GREAT HELMET (AUDIO).

**THE CHIPS®. WORK WITH
ALMOST EVERY SNOW
HELMET. AND NOW WITH
THE K-ROO POUCH, WITH
ALMOST EVERY OTHER
TYPE OF HELMET.**

These are the CHIPS®, the All-in-One Wireless Headphones that were designed for helmets and now are ready for action doing, well, pretty much anything you are up to. You can use them in your snow helmet, mountain bike helmet, or chilling in the bath-tub wearing your Made for CHIPS® Wick-Fit Beanie. They can play and pause, raise and lower volume, answer calls and skip tracks, all without making you remove your mittens and without a blinking blue light adding nerd status to your backside three. Just think: warm hands, fresh powder, two button total audio and communication control, and no wired in your jacket. Game on.

WE GIVE YOU OPTIONS. WE'RE THAT NICE.

**NOTHING'S BETTER THAN
WIRELESS CHIPS®... BUT
WE WERE ASKED AND ARE
OCCASIONALLY SUBSERVIENT
LIKE THAT, SO, BEHOLD THE
"BASIC" CHIPS®.**

These are the Wired CHIPS®, the universal, wired-up helmet audio system for the Bluetooth-averse (or the budget-conscious). Drop them into nearly any helmet with an audio-ready liner and give your runs down the mountain the soundtrack they deserve. There's no battery, so the Wired CHIPS® will keep up for as long as you (or your device) can last. One giant button control all the sound without making you de-glove or pull out your player.

//WIRED CHIPS®

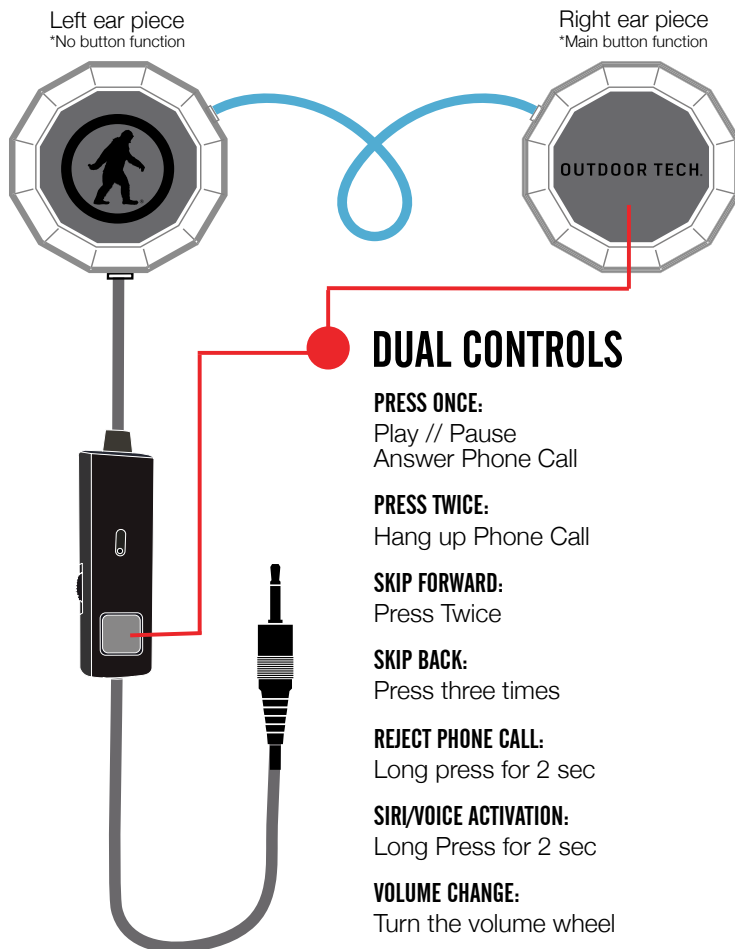

Like the wireless CHIPS®, but you know, not wireless, and less \$\$\$. Basic CHIPS®.

OT0042

WIRED CHIPS® - Universal
Wired Helmet Audio

//FUNCTION

//FEATURES

- Rugged, minimal design fits into virtually any helmet designed to take audio drop-ins
- Patented control interface changes tracks, plays/pause music, and takes calls with just one glove-friendly button, super simple
- Built-in noise-canceling microphone
- IP45 sweat and water-resistant
- Tested to work perfectly at -20° C/-4°F
- Simple Siri and voice activation makes placing calls or checking the time a "gloves on" experience

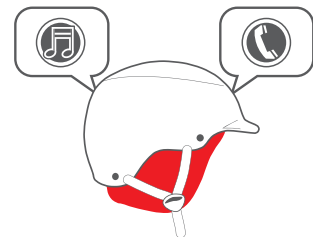

Don't be this guy.

Be better.

1. Drop the Chips® into the slots inside your helmet liner

2. Rock out and make calls without taking off your helmet.

Included:

3.5mm to 3.5mm cable with in-line controls, ODT signature carry pouch, and user manual

**SO...YOUR HELMET
DOESN'T HAVE A PLACE
FOR DROP-IN AUDIO
WAHH!**

**STOP IT, IT'S 2015, WE HAVE COME A LONG WAY,
SOME MIGHT CALL IT PRO-GRESS. THE K-ROO
POUCH, MAKES ALMOST ANY HELMET (SNOW,
BMX, SKATE, BIKE) AUDIO COMPATABLE.**

//K-ROO POUCH (UNIVERSAL HELMET AUDIO POUCH)

WELCOME TO the "Made for CHIPS®" WORLD.

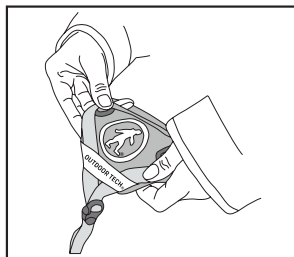

OT3830

CHIPS® POUCH - Universal
Helmet Audio Pouch- Black

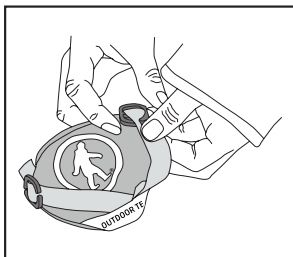

//FUNCTION

FOLLOW THE STEPS

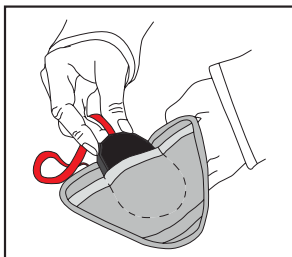

STEP ONE

Place your K-Roo Pouch in the inside of the Y-strap on your helmet. Then feed the Y-strap through the "Outdoor Tech" band on the pouch.

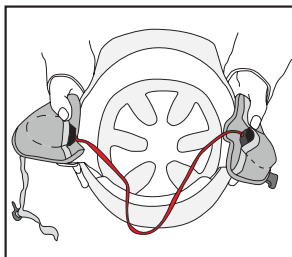

STEP TWO

Slide the top of the Y-strap through the clips to secure the straps to the K-Roo Pouch.

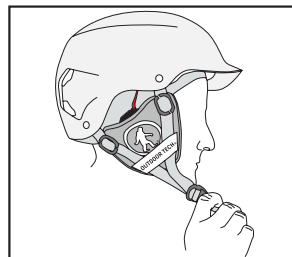

STEP THREE

Place your CHIPS® or other helmet audio systems into the K-Roo Pouch. Feed the wire around the inside of the helmet to hide it from view.

STEP FOUR

Apply all three steps to the other side of the helmet so it looks like the above illustration.

STEP FIVE

Connect your CHIPS® to your smartphone, put your helmet on, and jam your way through any activity. We're glad you're being safe in wearing your helmet. This is us rewarding you.

HELMET ACTIVITIES

//FEATURES

- Solves the helmet audio problem once and for all, bam, just like that.
- Works with pretty much any helmet with V straps.
- Mountain bike, BMX, skate, or snow, all good.
- Super breathable, for the hot ones.
- Lightweight so they won't slow your roll.
- CHIPS® glove friendly tactile buttons controlled easily through pouch.
- Made for CHIPS® (but works with any drop-ins)

WARNING: For safety reasons, some state and local laws prohibit the use of headsets when operating a bicycle. Use Chips® only for off-highway activities. Do not use Chips® at excessive volumes because it may cause permanent hearing damage.

*Global Patents Pending

*Available by April 2015

WOULDN'T IT BE RAD...

//EXOSKELETON

"I love my CHIPS® and what to use them more, ODT, will you make me a bulletproof headphone frame, please?"-Chad
OK, Chad, will do.

OT3834

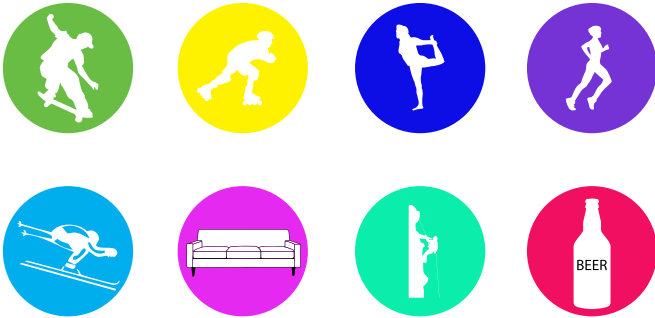

EXOSKELETON - CHIPS®
Headphone Frames

//FUNCTION

THE GOAL

Create minimal, stylized and durable CHIPS® frame that's light weight, foldable and easy to use. Nailed it!

ACTIVITIES

//FEATURES

- Expands the use of the CHIPS® to well, almost anything
- Durable, rugged, and nearly bullet proof, some real 007 #&%@
- Maintains the simple, tactile, dual button controls of the CHIPS®
- Light weight and compact, yep, it will fold and fit in your cocktail purse
- Minimal, stylized aesthetic providing a cohesive look and feel with the CHIPS®
- Ability to use with Wireless and Wired/Basic CHIPS®
- Available by April 2015

*Available by April 2015

THE BOOMBEANIE® IS BACK, BUT LIKE WAY BETTER
MADE FOR CHIPS® HEADWEAR, FOR ACTIVE USE, OR JUST KICKING IT, WE GOT YOU COVERED.

//CHIPS® HEADWEAR

Another place to hide your CHIPS®

OT3831

CHIPS® WICK-FIT BEANIE -
Helmet Audio Liner- Black

OT3832

CHIPS® WICK-FIT BEANIE HEADBAND -
Helmet Audio Liner- Black

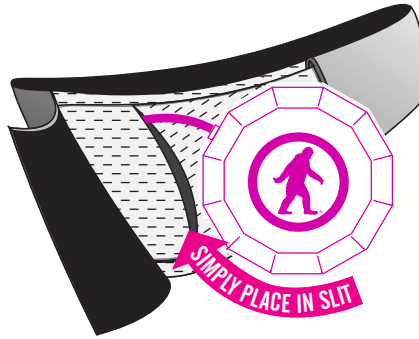

OT3833

CHIPS® CUFF BEANIE - Helmet Audio
Liner- Black

//FUNCTION

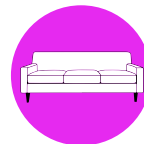

WICK-FIT BEANIE

WICK-FIT HEADBAND

CUFF BEANIE

//FEATURES

- Adapt your CHIPS® for running, yoga, or your couch
- Wick-Fit material keeps you light and dry, with Hi-Fi sound
- For those who can't stand earbuds or headphones while working out, but still want their music, problem solved.
- Fits any audio drop-ins, but designed specifically for use with Basic and wireless CHIPS®
- Reflective logo for a little extra safety, Mom asked, we delivered

*Available by April 2015

SAY HELLO TO OUR POCKET-SIZED POWER

THE KODIAK MINI IS A RUGGED, PORTABLE POWER BANK. THIS IS ONE OF YOUR MOST TRUSTED FRIENDS FOR WHEN YOU'RE IN A BIND TO CHARGE YOUR DEVICE.

//KODIAK MINI

This little guy packs quite the punch for when you need back up.

//FUNCTION

//FEATURES

- Pocket portable, go anywhere
- 2600 mAh, that lil guy packs a punch
- Tough rubberized shell
- IP54 dust- & water resistant
- Charges up to 1.1 amp
- Weight: very light

Included:

USB charging cable and user manual

LIFE'S PRETTY SWEET WITH **PORTABLE POWER**

**THE KODIAK IS A RUGGED,
PORTABLE POWER BANK. TAP INTO
STORED ENERGY AND SAVE YOUR
GOOD TIME FROM A DEAD
BATTERY.**

The Kodiak 6000 is your go-to portable, ruggedized and rechargeable power bank – shockproof, waterproof, and holding hours of stored lightning to power up your mobile devices. With 6000maH of capacity and switchable 1.0 or 2.4-amp output, the Kodiak will charge pretty much any mobile device that plugs into a USB outlet – including high-draw devices like tablets.

//KODIAK

At the beach and don't have a Kodiak? Hope you brought a really long extension cord.

//FUNCTION

//FEATURES

- Rechargeable 6000 mAh battery
- Tough rubberized shell
- IP67 dust- & waterproof (YES, we said it, waterPROOF, BAM!!)
- Battery level indicator
- USB charging cable
- Charges up to 2.4 amp
- Weight: 0.69 lbs (9.4 oz)
- Full charge takes a period of 4 hours

Included:

USB charging cable and user manual

THE KODIAK PLUS IS THE CADDY OF THE KODIAK LINE, BIG BALLER, ALL THE BELLS AND WHISTLES, AND A GIANT GAS TANK.

The Kodiak Plus takes the popular Kodiak, and makes it, well, better. We added 40% more power into a slimmer and sleeker form factor, dropped a 2nd USB port so you can share your power (if that's your thing), and maintained the shockproof and waterproof features that have come to be the envy of every bar-goer and outdoorsman globally.

//KODIAK PLUS

More power, slimmer form factor, don't ask us, ask science.

- Charges up to 2.4 amp
- Tough rubberized shell
- IP67 dust- & waterproof (YES, we said it, waterPROOF, BAM!)
- Battery Level Indicator

Included:

USB charging cable and user manual

*Available by April 2015

ANYTHING YOU CAN DO WE CAN DO 3 TIMES BETTER

**DON'T CARRY AROUND
A GRIP OF CHARGE
CABLES. YOU ONLY NEED
ONE. WE HAVE IT.**

Remember the cable that came with your phone? How about the one for your iPod...or your headphones...or your Bluetooth speaker...or your fitness monitor? Yup, we know. You lost one, left one in your car, and you're sure there's one plugged in a socket at your last one-night stand. The one you still have? It's definitely the one you don't need right now. The Calamari changes that. One cable to rule them all, with 3 connectors and bright, vibrant colors to help you keep track of it. We sure are smart.

//CALAMARI

The USB connector with three heads and one wire. Make your life a little simpler.

OT3100-B

CALAMARI - 3-in-One
Charge Cable - Black

OT3100-G

CALAMARI - 3-in-One
Charge Cable - Green

OT3100-PB

Charge Cable - Powder Blue

OT3100-R

CALAMARI - 3-in-One
Charge Cable - Red

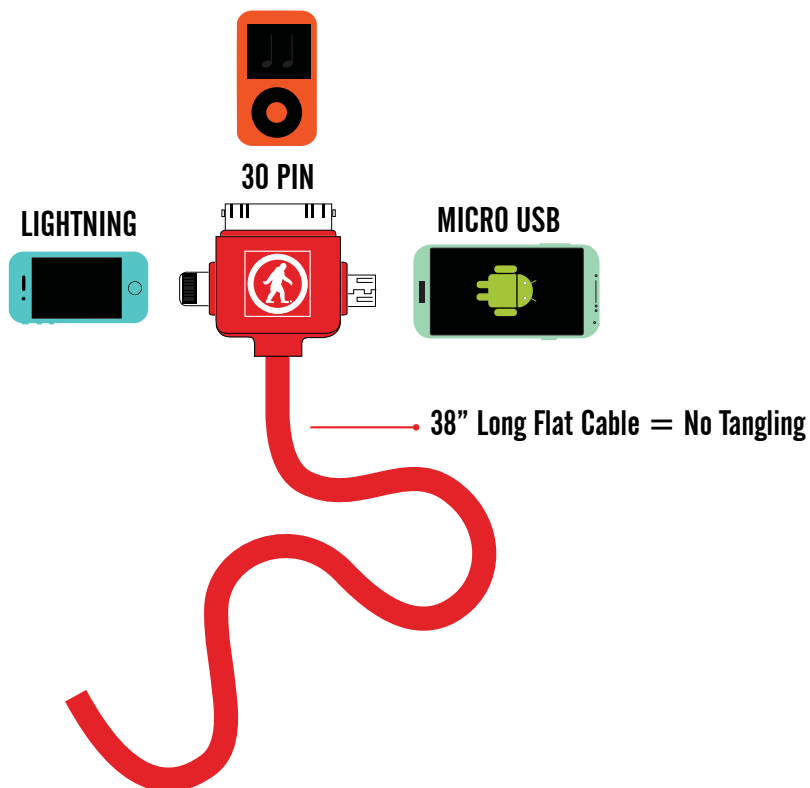

OT3100-W

CALAMARI - 3-in-One
Charge Cable - White

//FUNCTION

**BUCK THE TREND
OF LOST CABLES.
KEEP YOUR BAG
SLIM WITH JUST
ONE WIRE.**

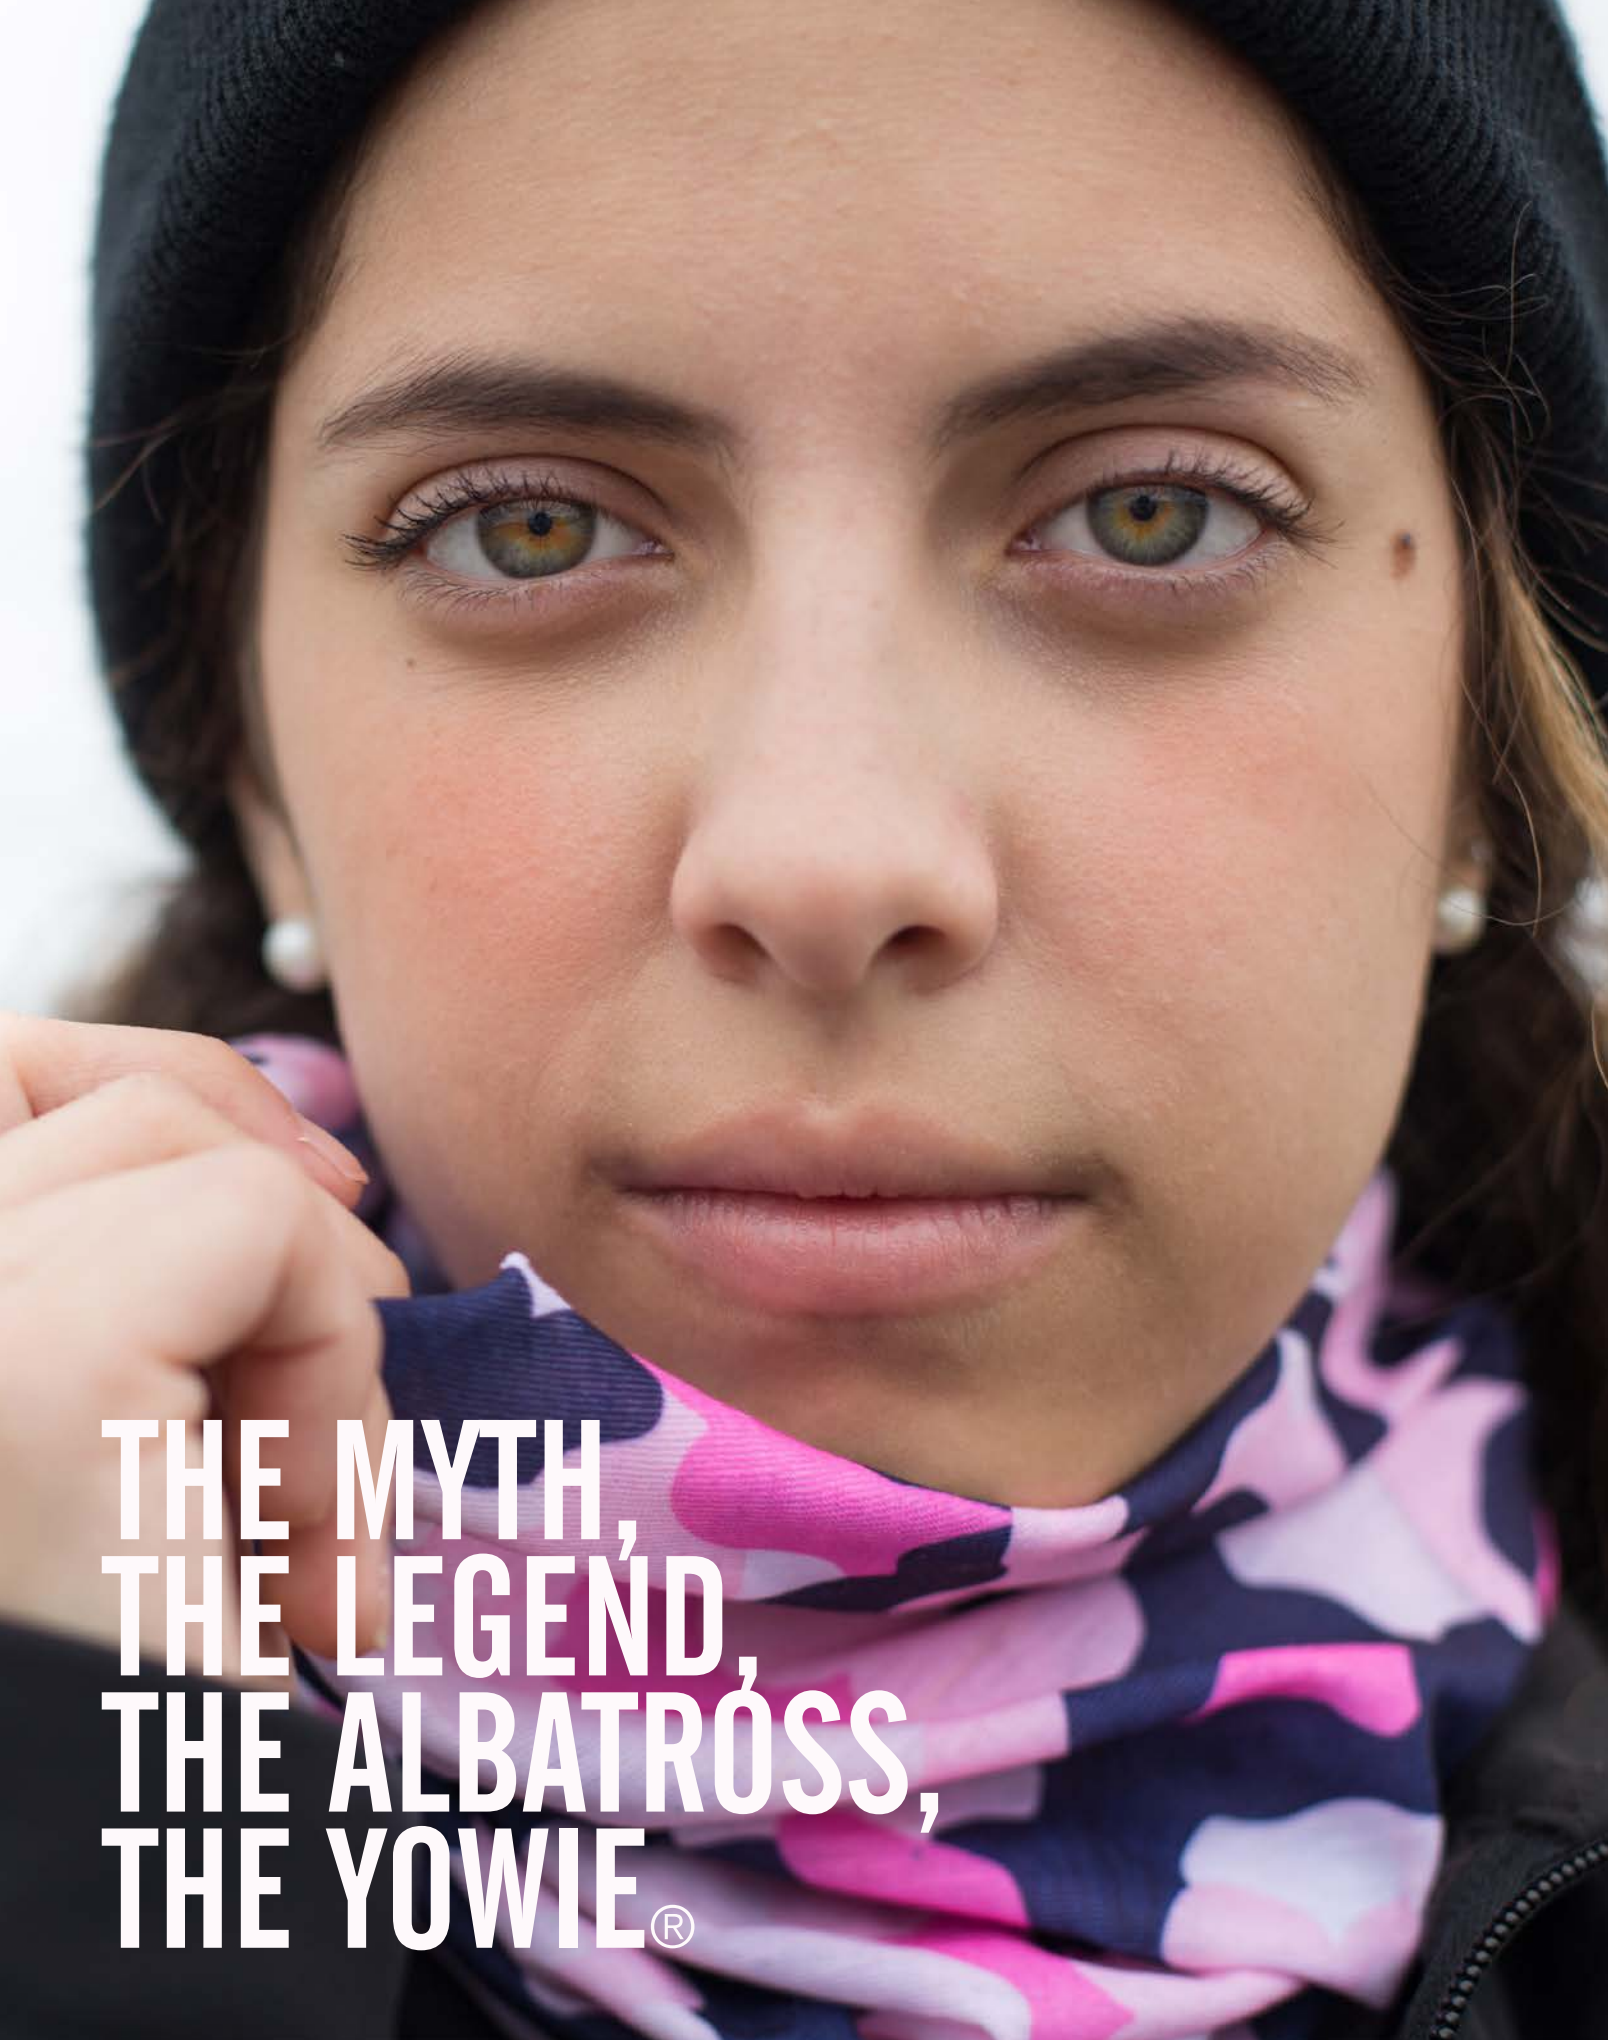

//FEATURES

- 30-pin, lightning, and micro-USB connector in one
- Flat cable for reduced tangling
- USB plug for laptop / Big Turtle Shell® / Kodiak Line compatibility
- Charges most ODT devices

Included:

Just the cable, isn't that enough?

**THE MYTH,
THE LEGEND,
THE ALBATROSS,

//DISPLAYS

We spent a bit of time and energy to make our packaging, well, pretty great, so show it off.

TWO-SIDED FREE STANDING TOWER DISPLAY

The Tower display gives you a great canvas to show off ODT in all its glory, no, we don't want to streak the quad with the new tower, we just want you to carve out a little spot right in front of your store, cool? Solid.

COUNTER DISPLAY

You asked, we delivered. It fits pretty much everything, in a small package, to sit nice and pretty on your counter, OR it will even hang with the nifty brackets we made for it. Pretty sick.

//DISPLAYS

Experience, experience, experience. Your customers want it, we have it, what's next on the To Do List?

HEADPHONES LIVE AUDIO DISPLAY

So, after all, we are selling headphones here, and while the customer can't walk around the shop and experience the audio bliss that comes with the ODT Wireless-ness, they can test 'em out and then, well, buy them.

SPEAKER LIVE AUDIO DISPLAY

Can I hear it? How loud is it? Does it sound good? Well, yes, you can, and yes, it does, and well, it's loud. So there. Give 'em the retail experience they crave, sell speakers with sound, crazy right?

Two geometric, faceted speakers are shown on a snowy surface. The speaker on the right is larger and features a complex, multi-faceted design with various patterns of dots and lines on its faces. The speaker on the left is smaller and has a similar but simpler faceted design. Both speakers have a dark, possibly black, base color. The background is a bright, snowy landscape with a dark, rocky shoreline visible at the top.

WELL KIDS, ITS CLOSING TIME FOR THIS RAG.
WE HAD FUN BUILDING ALL THESE THINGS.
WE HOPE YOU HAVE FUN USING THEM.
AT THIS POINT WE ARE PRETTY SPENT.
ALL WE WANT TO DO IS **CRAWL INTO THE AIRSTREAM,**
RAISE A JAR OF SHINE,
AND TOAST
TO THE END...
BUT THIS IS NOT THE END.
JUST THE END OF THE CATALOG.
WE WILL CONTINUE TO MAKE **STUFF YOU PROBABLY WANT®**

BUT THEN AGAIN, **YOU KNEW THAT.**
SEE YOU NEXT TIME.
